

70-270 Exam Prep

Installing, Configuring and Administering Windows XP Professional

Who should attend this course?

The course has been designed for students at the beginning of their IT career. Recent graduates, current help desk employees and those students looking for a career change.

Any experience with any of Microsoft's Windows operating systems would be beneficial, however is not a prerequisite for attending the course.

Duration

5 days (full time)
9:00am – 4:30pm Monday to Friday
(lunch and refreshments provided)

Why Inspired Training Solutions?

Inspired Training Solutions is a sister company to the Inspire Recruitment Group of specialist recruitment businesses practicing in IT/Telco, Sales, Engineering & Construction.

It was born out of demand from our candidates asking for advice in the tough economic climate regarding how they can make themselves more desirable to current and future employers.

We have brought together some of the industries best trainers and careers representatives to provide practical courses, that are designed around the student.

Our points of difference are as follows:-

- Students are allocated a 'Career development manager' to assist in areas like interviewing, resume writing, presentation skills etc
- Part of a growing recruitment group that can assist in finding work for potential candidates
- Referral fees for students
- Possible payment plans for eligible students to ease the burden of personal cash flow
- Part time evening and weekend courses (subject to availability)

Course Content

The course consists of practical exercises that build your understanding and experience

of managing Windows XP in a corporate environment, while preparing you for the Microsoft 70-270 certification exam.

Students who successfully pass this exam will be awarded an MCP from Microsoft and will have completed one of the required exams towards their MCSA/MCSE.
