

## 70-291 Exam Prep

# Implementing, Managing and Maintaining a Microsoft Windows Server 2003 Network Infrastructure: Network Hosts and Services

### Who should attend this course?

The course has been designed for students moving from supporting desktops to supporting servers. Recent graduates, current help desk employees and those students looking for a career change.

Completion of Microsoft Exam 70-290 is vital to increase the effectiveness of the exercises.

### Duration

5 days (full time)  
9:00am – 4:30pm Monday to Friday  
(lunch and refreshments provided)

### Why Inspired Training Solutions?

Inspired Training Solutions is a sister company to the Inspire Recruitment Group of specialist recruitment businesses practicing in IT/Telco, Sales, Engineering & Construction.

It was born out of demand from our candidates asking for advice in the tough economic climate regarding how they can make themselves more desirable to current and future employers.

We have brought together some of the industries best trainers and careers representatives to provide practical courses, that are designed around the student.

Our points of difference are as follows:-

- Students are allocated a 'Career development manager' to assist in areas like interviewing, resume writing, presentation skills etc
- Part of a growing recruitment group that can assist in finding work for potential candidates
- Referral fees for students
- Possible payment plans for eligible students to ease the burden of personal cash flow
- Part time evening and weekend courses (subject to availability)

### Course Content

The course consists of practical exercises that build your understanding and experience of a

Windows Server 2003 Network Infrastructure, while preparing you for the Microsoft 70-291 certification exam.

Students who successfully pass this exam will be awarded an MCP from Microsoft and will have completed one of the required exams towards their MCSA/MCSE.
